General Safety Guidelines

- Read the user manual before operating any appliance or equipment.
1. Check the voltage available at your home and ensure that it matches with the voltage mentioned on your appliance, before switching it on.
 2. The appliance is not to be used by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they are under supervision or have been given correct and necessary instructions.
 3. If the power cord is damaged, please get it replaced at a service center or by a person who is designated by the manufacturer or a qualified person, in order to avoid electric shock.
 4. Always keep the unit on a dry and flat surface.
 5. Never touch any appliance or equipment with wet or damp hands.
 6. While plugging or unplugging a power cord, hold it by the plug; never pull the cord.
 7. Do not connect the equipment to an extension cord or a multiple socket adaptor. Always connect the unit to the main socket; this is to prevent short circuits and sparks, which can shorten the life of the unit and prove risky for your life.
 8. Do not let the power cord hang over the edge of the table or a work surface as a sharp edge can damage the cable over a period of time.
 9. Do not let it get tangled or come into contact with a hot surface.
 10. Do not attempt to repair the unit in case of any malfunction, always take it to an authorized service center.
 11. Do not use any attachments other than the ones supplied by or specified by the manufacturer.
 12. Never leave the unit unattended while in operation especially, when children are around.
 13. Children should be supervised to ensure that they do not play with the appliance.
 14. The equipment is for household use only, do not use it for commercial purposes.
 15. All appliances and equipment are designed for indoor use. Do not use them outdoors unless specifically mentioned in the instruction manual.
 16. Always unplug the unit from the power source during lightning and thunderstorms, or when the unit is not going to be used for a long period of time.
 17. To avoid risk of electric shocks, do not immerse the equipment in water or use it in damp conditions.
 18. The unit should be cleaned with a damp cloth and immediately wiped dry. Do not use detergents or chemical cleaning agents to clean the unit.
 19. Always clean cooking appliances soon after use, this will prevent food from sticking to the unit and the possible bacterial growth.
 20. **WARNING:** If the surface is cracked, switch off the appliance to avoid electric shock.

Children younger than 3 must not use the appliance due to their inability to react to operate the appliance.

The cartridges shall be changed in a well ventilated location, outside away from sources of ignition and away from other people.

CAUTION: Accessible parts may become very hot, keep unit out of reach of children.

1. Check that burners are extinguishing the gas cartridge.
2. Check the seals before connecting a new gas cartridge to the appliance.
3. Change the gas cartridge outside and away from people.
4. Check the seals between the appliance and the gas cartridge.
5. Do not use the appliance if it has damaged or worn seals, do not use an appliance which is leaking, damaged or which does not operate properly.
6. If there is a leak on your appliance (smell of gas), take it outside, immediately into a well ventilated location where the leak may be detected and stopped.
7. If you want to check the leak, do it outside, do not try to detect leaks using a flame, use soapy water.

Name and Function of Each part

1. Vessel Holder
2. Gas Saving Protector
Prevents the fire from being extinguished by the wind saves the gas by concentrating the fire flame.
3. Bottom Pan

Fixes the gas can when it is pushed down and releases the can when pulled up.
13. Valve
14. Ignition Knob
For ignition of the burner. turn this knob the left until you hear the -Clicking sound. You may control -The heat after ignition.
15. Instruction panel

Right Usage

Install the Butane Gas Burner on the safe and operate it as follows

- 1 Install the soup holder right and open the gas can cover

 For opening the cover, put your finger into the hole of the can cover and pull it up smoothly.
- 2 Put the gas can on the gas can stay.

 Match the hole of the gas can and the protuberance, first: and push the gas can down. If the hole and protuberance is not fitted the gas can will not be set.
- 3 Push the gas can holder knob down.

 Be sure if the gas can is well fixed.
- 4 shut the gas can cover.

 Shut it as is shown above.
- 5 Ignite the burner by tuning the ignition knob th the left.

 Turn it until you hear the clicking sound. The knob is not tured around when the soup holder is put upside down.
- 6 Put the cooking vessel upon the pan stay and adjust the flame with the ignition knob.

 If you turn it to the left, the flame will be bigger; if you turn to the right, the flame will be smller.
- 7 When the cooking is finished, extinguish the fire.

 Turn the Ignition knob to the right and extinguish the burner fire.
- 8 Pull up the gas can holder knob.

 Be sure to pull up the gas can holder knob to the 'Off' position while you do not use the burner.
- 9 Use LPG instruction .

 First take out the butane-can. cut off the butane. Then adjust the switch to OFF. connect the LPG copper-connector to the LPG ENTRANCE. Install it tightly and confirm not leak LPG. Then open the LPG valve and continue next.

Disposal of the appliance

Correct Disposal of This Product
(Waste Electrical & Electronic Equipment)
(Applicable in the European Union and other European countries with separate collection systems)
This marking on the product, accessories or literature indicates that the product and its electronic accessories should not be disposed of with other household waste at the end of their working life. To prevent possible harm to the environment or human health from uncontrolled waste disposal, please separate these items from other types of waste and recycle them responsibly to promote the sustainable reuse of material resources.
Household users should contact either the retailer where they purchased this product, or their local government office, for details of where and how they can take these items for environmentally safe recycling. Business user should contact their supplier and check the terms and conditions of the purchase contract. This product and its electronic accessories should not be mixed with other commercial wastes for disposal.
